

AGRICULTURAL ENGINEERING

The Journal of the

American Society of Agricultural Engineers

Index to Volume 3—January to December, 1922

1922

January	Pages	Dockage Removal (See Cleaning, Grain)
February	1-16	Drainage
March	17-36	(See also Tile)
April	37-56	Barn lot drainage and barn sanitation (R. L. Patty)
May	57-76	Financing drainage districts (S. H. McCrory)
June	77-96	Special features on the drainage of irrigated lands (W. W. Weir)
July	97-112	Einfeldt, E. E.—Farm implement wheels
August	113-128	Electricity to Agriculture, Application of
September	129-144	Engineer in Public Service, The (Herbert Hoover)
October	141-160	Ensilage Cutters (Silo Fillers)
November	161-176	Horsepower requirements of silage cutters (H. M. Gehl)
December	177-192	Important factors in silage cutter design (A. P. Verkes)
Agricultural Engineering (Agricultural Engineers)		Erosion, Soil (Terracing)
(See also Research)		The control of soil erosion (Virgil Overholt)
Possibilities in agricultural engineering	132	Standards of terracing (J. T. Copeland)
Agricultural engineering in land settlement (M. E. Cook)	155	Farm Machinery (See Machinery)
Ahart, J. L.—The Ahart method of tractor plowing	116	Farm Power (See Power)
Ahart Method of Tractor Plowing, The (J. L. Ahart)	116	Farm Structures (See Buildings)
Air Cleaners for Tractor Engines, Tests of (A. H. Hoffman)	167	Fenton, F. C.—Recent developments in farm buildings
American Society of Agricultural Engineers		Fletcher, L. J.—Factors influencing tractor development
The president's annual address (E. A. White)	11	Flood Control in Miami Valley (O. N. Floyd)
Animal Power (See Power)		Floyd, O. N.—Flood control in Miami Valley
Barns		Harrows, Disk
(See also Roofs; Ventilation)		Report on disk harrow investigation
Relation of barn construction to sanitation (C. S. Whitnah)	127	Hemphill, R. G.—The exchange of water in northern Colorado
Belt Speeds, Considerations Affecting (A. B. Welty)	115	Hoffman, A. H.—Tests of air cleaners for tractor engines
Belting to Economical Power Transmission, Relation of (C. O. Streeter)	199	Hog Houses, Sunshine Efficiency of (Discussion)
Black, R. H.—Removing dockage from wheat at the thresher	19	Hog House Ventilation System, Test of a (M. A. R. Kelley)
Blasingame, R. U.—Relation of lug equipment to traction	79	Hoover, Herbert—The engineer in public service
Buildings		Irrigation
(See also Barns; Roofs; Ventilation)		Special features on the drainage of irrigated lands (W. W. Weir)
Recent developments in farm buildings (F. C. Fenton)	101	The exchange of water in northern Colorado (R. G. Hemphill)
Cement stucco for farm buildings (J. B. Freeman)	154	Iverson, G. W.—Possibilities of the all-purpose tractor
Need of a country plumbing code (H. H. Musselman)	154	Jantz, D. L.—Contraction and expansion of concrete roads
Cleaning, Grain		Jones, W. W.—Standardized design can reduce loss between tractor and field machines
Removing dockage from wheat at the thresher (R. H. Black)	19	Kelley, M. A. R.—Factors influencing the design and operation of farm building ventilation systems
Cleaning grain to a no-dockage basis	127	Test of a hog house ventilation system
Clearing, Land		King, J. A.—Tile size standardization
New engineering developments in land clearing (John Swenehart)	63	Land Clearing (See Clearing)
Extent of use of stump pullers	104	Land Development (See Colonization; Reclamation)
Clyde, A. W.—Gothic barn roofs	61	Land Settlement (See Colonization)
Colonization, Land		Lehmann, E. W.—Keeping the water supply pure
(See also Reclamation, Land)		Lindgren, A. C.—Coordination of theory and practice in plow design and operation
Advantages of a planned rural development (Elwood Mead)	42	Lugs, Tractor (See Tractors)
Agricultural engineering in land settlement (M. E. Cook)	155	Machinery (Mechanical Equipment)
Cook, M. E.—Agricultural engineering in land settlement	155	(See also Electricity; Ensilage Cutters; Harrows; Plows; Power; Standardization; Threshers; Tractors)
Copeland, J. T.—Standards of terracing	156	Considerations affecting belt speeds (A. B. Welty)
Davidson, J. B.—The College Division and its possibilities	28	Standardized designs can reduce loss between tractor and field machines (W. B. Jones)
Dinsmore, Wayne—The efficient use of animal power	23	Farm implement wheels (E. E. Einfeldt)
Divisions (A.S.A.E.)		McCrary, S. H.—Financing drainage districts
The College Division and its possibilities (J. B. Davidson)	39	Mead, Elwood—Advantages of a planned rural development
	139	Meetings (A.S.A.E.)
	118	The 15th annual meeting
	131	Council meeting at Chicago
	131	Council meeting at Chicago
	134	Musselman, H. H.—Need of a country plumbing code
	134	Overholt, Virgil—The control of soil erosion
	134	Patty, R. L.—Barn lot drainage and barn sanitation
	134	Tile size standardization
	134	Plows
	59	Coordination of theory and practice in plow design and operation (A. C. Lindgren and O. B. Zimmerman)
	179	Discussion
	134	Left-hand plow investigation report
	134	Wearing test of plowshares
	134	The Ahart method of tractor plowing (J. L. Ahart)
	134	Plumbing Code, Need of a Country (H. H. Musselman)
	134	Power
	134	The efficient use of animal power (Wayne Dinsmore)
	134	Relation of belting to economical power transmission (C. O. Streeter)
	134	Quicksand in a Well, Handling
	134	Reclamation, Land
	134	(See also Clearing; Colonization; Drainage; Erosion; Irrigation)
	134	Reclamation Division (A.S.A.E.) objective
	134	Flood control in Miami Valley (O. N. Floyd)
	134	Research
	134	Research in agricultural engineering (1921 report)
	134	Riley, H. W.—Farm sewage disposal devices
	134	Roads, Contraction and Expansion of Concrete (D. L. Jantz)
	134	Roofs
	134	Gothic barn roofs (A. W. Clyde)
	134	Sanitation (See Sewage Disposal; Ventilation; Water Supply)
	134	Sewage Disposal
	134	Farm sewage disposal devices (H. W. Riley)
	134	Barn lot drainage and barn sanitation (R. L. Patty)
	134	Relation of barn construction to sanitation (C. S. Whitnah)
	134	Silage Cutters (See Ensilage Cutters)
	134	Soil Erosion (See Erosion)
	134	Standardization (Standards)
	134	Standard code for testing tractors
	134	Tile size standardization (J. A. King and R. L. Patty)
	134	Streeter, C. O.—Relation of belting to economical power transmission
	134	Stucco for Farm Buildings, Cement (J. B. Freeman)

Swenehart, John—New engineering developments in land clearing	63	tween tractor and field machines (W. B. Jones)	133	Weeks, David—Discussion of tile size standards	121
Terracing (See Erosion)		Possibilities of the all-purpose tractor (G. W. Iverson)	147	Weir, W. W.—Special features of drainage of irrigated lands	182
Threshers, Grain (Threshing)		Tests of air cleaners for tractor engines (A. H. Hoffman)	167	Welty, A. B.—Considerations affecting belt speeds	115
Removing dockage from wheat at the thresher (R. H. Black)	19	Factors influencing tractor development (L. J. Fletcher)	179	Whitnah, C. S.—Relation of barn construction to sanitation	137
Tile Size Standardization (J. A. King and R. L. Patty)	119		137	Wheels, Farm Implement (E. E. Einfeldt)	163
Discussion	121	Ventilation		White, E. A.—The president's annual address	11
Tractors		Relation of barn construction to sanitation (C. S. Whitnah)	137	Yerkes, A. P.—Important factors in silage cutter design	131
Relation of lug equipment to traction (R. U. Blasingame)	79	Factors influencing the design and operation of farm building ventilation systems (M. A. R. Kelley)	150	Zimmerman, O. B.—Coordination of theory and practice in plow design and operation	3
Standard code for testing tractors	82	Test of a hog house ventilation system (M. A. R. Kelley)	164		
The Ahart method of tractor plowing (J. L. Ahart)	116		39		
Standardized design can reduce loss be-		Water Supply			
		Keeping the water supply pure (E. W. Lehmann)
